Jan Gejel has designed and carried out a large number of European training courses at European level. Jan Gejel is a professional in the *Working with Europe Association* based in Catalonia Spain. - www.workingwitheurope.com

Short description of the training course:

You and your team or your institution would like to develop authentic entrepreneurial education for your students, regardless of age and educational level.

You have heard a lot about entrepreneurial education, you find it challenging and relevant, but you don't know how to create such entrepreneurial learning for your pupils or students, or adult learners.

You will then enjoy an intensive course designed especially for your needs and interests, in which you will:

- learn about what 21st century entrepreneurial learning means, in theory and in practice
- get deep into discussions of entrepreneurial didactics and learning principles
- work with other 21st century learning principles closely linked to entrepreneurial learning, such as media based learning, community based learning, learning based on real-life and real-time cases and game based learning
- discuss your own ideas on entrepreneurial learning and how they could be turned into practice
- discuss how to work with the community in entrepreneurial learning projects and activities
- learn about how you might obtain funding for your experiments from local, national and European programs
